

**Gem Stone Pars**

# About Us:

At Gem Stone Pars, with a foundation built on quality, and efficiency, we are committed to being a reliable source for minerals, steel products, machinery, and spare parts.

Established in 2013, Gem Stone Pars has evolved into a trusted source in the mining and steel industry in the region. Our state-of-the-art facilities, skilled workforce, and commitment to continuous improvement enable us to deliver products that meet the highest international standards.

To enhance our global reach and deliver consistency across markets, we've established strategic partnerships with leading companies worldwide (China, UAE, Italy, South Africa, and Turkey). These collaborations allow us to offer region-specific expertise and seamless service to our clients globally.

## We Supply

- Iron Ore
- Iron Concentrate
- Iron Pellets
- DRI
- Minerals
- Steel Products
- Machinery and Spare Parts
- Copper Products

**Gem Stone Pars is committed to delivering excellence, every step of the way.**

Copper Products

## Iron Ore

Lumped ore, and fine ore containing iron and iron compounds, used as a raw material.

### Magnetite

- Fe: %43- % 60
- FeO: %18- % 20
- S, P: max 0.1

### Hematit:

- S, P: max 0.1
- Fe: %57
- FeO: max 1

## Iron Ore Concentrate

Iron ore concentrates are deep beneficiated iron ore products, used for sintering.

- Fe: min % 66
- FeO : % 22
- P : % 0.06
- S : % 0.02

## Pellets

An iron ore material in the form of round ball granules, produced from concentrate.

- Fe: min % 65
- FeO : % 0.60
- P : max % 0.05
- S : max % 0.01

## DRI

DRI is a briquetted form of direct reduced iron with a high iron content (> 90%). It is used for steelmaking.

- Fe total 87-88%
- Fe metal 82-84%
- Metallization 91/5%
- Sizing: 90% size 9-18mm, 5%size 6.3-9

## Copper Cathode

Copper cathode is a high-purity form of copper produced through electrolysis, used as a primary raw material for manufacturing copper products.

- Cu : 99.97 % - 99.99 %

## Copper Concentrates

Copper concentrate is a processed ore containing high levels of copper, produced by crushing and refining mined copper ore for further smelting.

- Copper Concentrate produced by Flotation Method with a Grade of 35%- 40%
- Cu : 99.97 % - 99.99 %

## Copper Wire Rod

Copper wire rod is a semi-finished product made from refined copper, used for manufacturing electrical wires and cables.

- Cu : 99.97 % - 99.99 %

## Copper Scrap

Copper scrap is recycled copper material collected from discarded products, used as a raw source for producing new copper goods.

- Cu : 99.97 % - 99.99 %

## Billets

Rolled sections for rolling into various long steel products and profiles.

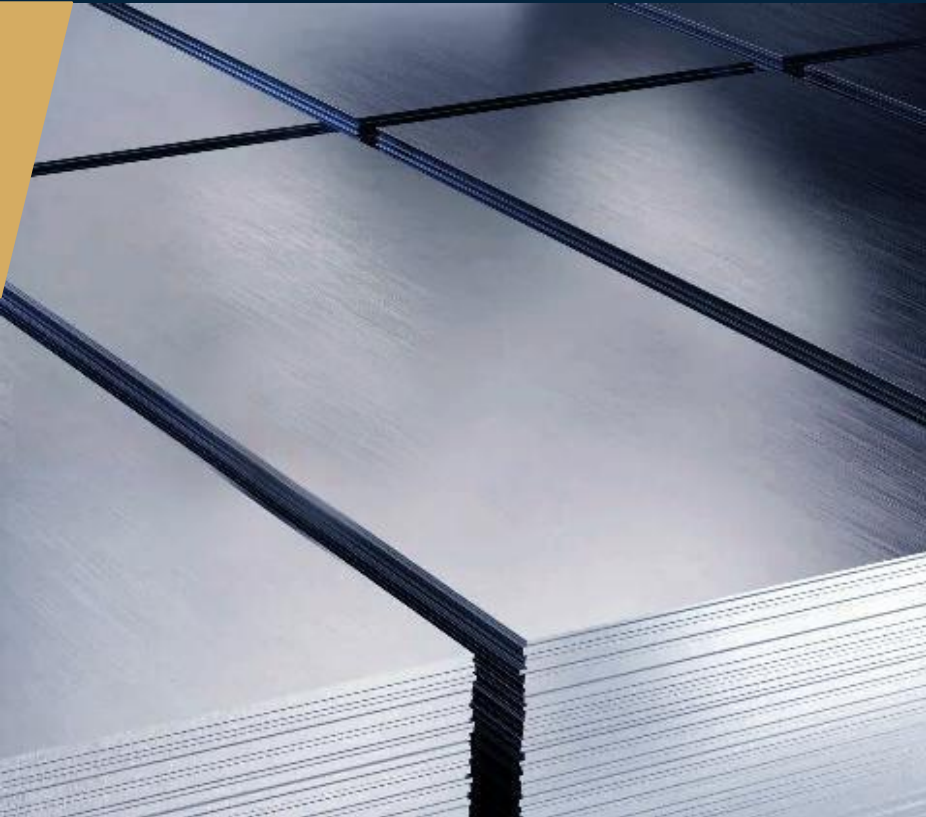

Grade: • 3 sd  
• 5 sd  
• B 500

Length(mm): • 6  
• 12

Cross section (mm): • 130x130  
• 150 x150

Other sizes, and grades are negotiable.

## Slab

Rolled square sections for rolling into various long steel products and profiles.

- Thickness (mm):  $T \pm 0.5$
- Width (mm):  $W - 10 / + 20$
- Length (mm):  $L - 100 / + 100$

Other size are negotiable.

## Bars

Steel products made at hot-rolling mills for subsequent shaping into finished products. Also used in the automobile manufacturing, mechanical engineering and construction industries.

- Sizing 8 -32 (mm)

• Standard	Yield strength Re (N/mm2)	Tensile strength Re (N/mm2)	Rm/Re	Elongation	Radius for bend test degrees
IRAN National	> 400	> 600	> 1.25	>16	160-180
• Standard	C %	Si %	Mn %	P %	S %
IRAN National	< 0/37	< 0.60	< 1.6	< 0.045	< 0.045

Other size are negotiable.

## Sheets

Products made at hot-rolling mills for subsequent shaping into finished products.

- Hot Rolled Steel Sheets
- Cold Rolled Steel Sheets
- Galvanized Sheets
- Steel Sheets

Other size are negotiable.

## Spare Parts

Products made at hot-rolling mills for subsequent shaping into finished products. Also used in the automobile manufacturing, mechanical engineering and construction industries.

# Our Wide Range of Product

- Chemicals
- Electrical equipment
- Electric motors and drives
- Couplings
- Safety & firefighting equipment
- Process machinery
- Refinery equipment
- Switchgear
- Valves and bearings
- Instrumentation and control
- Specialty steel
- Oilfield equipment
- Laboratory supplies
- Drill rigs and components
- Hand tools
- Pipeline equipment
- Process equipment
- Telecommunication
- Hazardous area fittings
- Production equipment
- Oilfield equipment
- Drill rigs and components
- Water treatment equipment
- Fire protection
- Gear Boxes & Gear Reducers
- CNC machine tools
- High Precision machine tools
- Pumps

# Preferred Manufacturer's List (partial list)

The following list of brands is offered with the intention of making your company aware of the goods, which General Trading S.r.l. has, a thorough knowledge of, and a special working relationship. It is not meant to be a definitive list, but rather a guide.
